

Congratulations to Stoneham High School, which was named to the 2023 AP School Honor Roll! The AP School Honor Roll recognizes schools whose AP program is delivering results and broadening access for students.

Schools can earn the Honor Roll recognition annually based on their ability to increase their school’s college-going culture, to provide opportunities for students to earn college credit, and maximize college readiness. The AP School Honor Roll offers four levels of distinction: Bronze, Silver, Gold and Platinum.

Stoneham High School had 32% of seniors who took at least one AP exam during high school, 54% of seniors who scored a three or higher on at least one AP exam, 48% of seniors who received AP Scholar recognition, and 7% of seniors who took five or more AP exams!

“On behalf of Stoneham High School and Stoneham Public Schools I thank our teachers for their consistent work and dedication to providing a rigorous, supportive and encouraging learning environment for our students. I commend our students for continuing to seek out advanced learning opportunities and to see rigor and academic challenge as an essential part of the learning process.” Bryan Lombardi, Principal

College Board’s Advanced Placement® Program (AP®) enables students to pursue college-level studies—with the opportunity to earn college credit, advanced placement, or both—while still in high school. Through AP courses in 38 subjects, each culminating in a challenging exam, students learn to think critically, construct solid arguments, and see many sides of an issue—skills that prepare them for college and beyond. Taking AP courses demonstrates to college admissions officers that students have sought the most challenging curriculum available to them, and research indicates that students who score a 3 or higher on an AP Exam typically experience greater academic success in college and are more likely to earn a college degree than non-AP students.
